

Sustainability Questionnaire

Pevensey Coastal Defence Ltd is committed to the principle of sustainability and how it can be applied to the Pevensey Bay Sea Defence project in particular. We recognise we have to strike a balance between;

- Social and Community needs
- The environment, and
- Providing value for money for the taxpayer

In order to achieve this we need to continually monitor our performance. We believe we are doing many things well, but there is always room for improvement. As the project is a partnership between ourselves, the Environment Agency and our Stakeholders we value the views of all who have been involved.

For each question we would be grateful if you could provide an opinion (✓) on the **Importance** of each issue to your organisation, scoring from Low to High, as well as **Performance** between 1 and 5 (Poor to Excellent). A Not Applicable (N/A) column has also been included if you feel this is the most suitable response.

Question		Importance			Performance					
		Low	Med	High	Poor	→			Excellent	N/A
					1	2	3	4	5	
1	How well do you think that we have managed the Health & Safety of beach operations?									
2	How efficiently do you feel we are managing our beach maintenance operations?									
3	How well do you believe that we have minimised noise, vibration & dust nuisance?									
4	How well do you think that we have provided access to information on the project?									
5	How well do you feel that we have cared for native beach flora & fauna?									
6	How well do you believe that we have minimised environmental pollution?									
7	How well do you believe that we respond to storm events?									
8	How well do you feel that we liaise with your organisation specifically?									
9	Do you think that the project provides the tax payer with good value for money?									
10	Please feel free to add additional details, or comments related to the above questions or sustainability in general									

Thank you very much for your co-operation in completing this form
Ian Thomas, PCDL Project Manager
